

RISK MEASUREMENT MATRIX

The diagram illustrates a Risk Measurement Matrix. It features a grid of colored boxes representing risk levels, defined by Frequency and Severity. A blue header bar at the top is labeled 'FREQUENCY'. A vertical blue bar on the right is labeled 'SEVERITY'. An arrow points from the 'SEVERITY' bar to the 'FREQUENCY' bar, indicating the relationship between the two dimensions.

FREQUENCY				SEVERITY
SELDOM	OCCASIONAL	FREQUENT		
MEDIUM	HIGH	EXTREMELY HIGH	CATASTROPHIC	
LOW	MEDIUM	HIGH	MODERATE	
EXTREMELY LOW	LOW	MEDIUM	NEGLIGIBLE
